LETTER FROM CHAIRMAN AND MANAGING DIRECTOR

Dear Shareholders,

Greetings !

Congratulation on yet another successful year of growth and achievements for your company, it is indeed a privilege for me to share the same with you. First of all, I would like to inform that in the financial year 2012-13 your company clocked highest ever turnover and profit of ₹ 4,406 crores and ₹ 940 crores respectively. Similarly, the net worth of your company increased to ₹ 6,281 crore and the capital employed has increased to ₹ 6,073 crore from ₹ 5,606 crore and ₹ 5,557 crore respectively in the previous year. The business volumes in terms of TEUs handled during the year were 2.6 million.

The capital expenditure during the year on creation of new terminals, expansion of existing ones and acquiring wagons, containers, etc. was ₹ 550.57 crores. In order to maintain its tempo of growth, it has huge capital expenditure plans for the years to come. Your company has been ploughing back a part of its profits, which is being used for strengthening infrastructure, a topmost requirement for sustained and continuous growth. The new funding requirements would also be met with the help of the internal accruals created over the years.

The unprecedented, still continuing recession in the world economy has impacted the business of the country adversely. The Indian Multimodal scene also continued to be quite depressing in 2012-13 with a moderate growth of 3.7% in rail throughputs. The level of inland penetration of containers remained quite low on account of heavy costs and delay factors attributable to Import-Export imbalances. The prospects look bright with the improvements expected on Export front on account of new emerging markets and various steps announced recently in the Foreign Trade policy, combined with prospects of deeper hinterland penetration in existing container handling ports, and emergence of similar opportunities in a number of new upcoming ports like Hazira and Dahej on the west coast and Krishnapattnam on east coast. All these factors will have impact on the long term growth prospects of your company as its operations are closely related to the growth prospects of Indian economy, in general, and external trade in particular.

In spite of dampening economic scenario, it gives me pleasure to share with you that CONCOR continues to be the best performer in the industry in almost all the key parameters and we are consistently moving forward towards greater heights.

To take on the challenges your company has formulated ambitious strategies and action plans. It has increased its emphasis on Strategic Tie-ups with Government companies, State Industrial Corporations and newly emerging ports to play the role of a credible Logistics Partner. At the same time, it is also planning to have tie-ups with road and rail operators hitherto considered as competitors adopting win-win strategies. Your company aims to provide total logistics and transport solutions to its customers by expanding its presence in all segments of Logistics value chain. In this direction, for air cargo venture a wholly owned subsidiary M/s. CONCOR Air Limited was formed, which will undertake the design, development and operations of the air cargo terminal at Santa Cruz airport in Mumbai. In addition, another company M/s. SIDCUL CONCOR INFRA Company Limited, with majority shareholding of CONCOR, was formed in joint venture with State Infrastructure and Industrial Development Corporation of Uttarakhand Limited (SIIDCUL) for development of Logistics Parks in the state of Uttarakhand.

Your company is committed to follow a policy of strong Corporate Governance based upon transparency, conscience, team work, professionalism and accountability thereby implementing the best standards and boosting the confidence of all the stakeholders. Your company is fully compliant as far as regulatory and statutory framework is concerned.

With your company's well laid down CSR policies and plans, it continues to make meaningful difference in the lives of many people by effectively implementing and monitoring the activities undertaken. Your company's thrust areas under CSR include health & medical care, education/literacy enhancement, community development & rehabilitation measures, environment protection, conservation of natural resources, natural calamities and infrastructure development. The flagship programme adopted under CSR continued to be education, under which your company has been working with various agencies, to provide support to the poor and destitute adults and children in the field of education. The efforts made by the company in this regard have been recognised and appreciated by the community and Government for which the your company was awarded the prestigious SCOPE Meritorious Award for Corporate Social Responsibility & Responsiveness for the year 2011-12.

During the year, your company has bagged the following awards & accolades for its continuous outstanding performance:

- Prestigious PSE Excellence Award 2012 for being Best Financial Performer in the Miniratna and Others Category from Indian Chamber of Commerce (ICC) and Department of Public Enterprise (DPE) Govt. of India.

- The Gateway Award for CONCOR ICD Khodiyar for being the Inland Container Depot of the Year in recognition of creating state-of-the-art facilities and delivering service of high quality during the year 2011-12.
- KRDWG Award for "Excellence in Application of MIS in Industry" in the category of IT Innovation and Excellence.

Several IT initiatives taken during the year include extension of facility of electronic-filing of documents by customers on the commercial system at all EXIM terminals, establishment of backup site for commercial applications, implementation of employee portal, e-tender system with e-payment facility, etc.

Looking Forward, financial year 2013-14 is going to be quite challenging with global economic environment still remaining uncertain and concerns about rising current account and fiscal deficit persisting. However, we will continue to make concerted and conscientious efforts to promote business growth through excellence by continuously working on our people and processes.

To conclude your support is a great motivator to team CONCOR and it is always our endeavour to drive your company in a faster and responsible manner. I am confident that with the dedication and team work your company will cross many new milestones in the periods to come. MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY OVERVIEW

The Indian Multimodal scene continued to be quite depressing in 2012-13 with a moderate growth of 3.7% in rail throughputs. Originating containerized tonnage transported by rail by 15 active out of 17 licensed Container Train Operators (including CONCOR) increased by around 6.5%, from 38.58 Million Tons in 2011-12 to 41.07 Million Tons in 2012-13. However, the level of inland penetration of containers remained quite low on account of heavy costs and delay factors attributable to Import-Export imbalances. The prospects look bright with the improvements expected on Export front on account of new emerging markets and various steps announced recently in the Foreign Trade policy, combined with prospects of deeper hinterland penetration in existing container handling ports and emergence of similar opportunities in a number of new upcoming ports like Hazira and Dahej on the west coast and Krishnapattnam on east coast. Massive port development activities are also taking place on the south Eastern coast.

In the above mentioned external business environment, your company managed to actually strengthen its position and continued to be the lead player, carrying 30.62 Million Tons (74.6%) of containerized cargo during 2012-13, up from 28.29 Mn Tons (73.3%) carried in 2011-12. It also continued to place emphasis on providing total logistics and transport solutions to its customers by expanding the presence of the company in all segments of transport value chain in EXIM as well as Domestic segments. Emphasis was also kept on optimal utilization of infrastructure with complete cost control, combined with strategy of expansion into other segments of the value chain, with overall objective of making logistics services effective, efficient and competitive. At the same time, your company also embarked on its ambitious plans for setting up of number of Multi Modal Logistics Parks (MMLPs) for providing single window services and seamless connectivity for promoting hinterland transportation of containers as well as break bulk cargo to take opportunity of using same terminals for bulk handling, warehousing and value addition of cargoes moving in Railway wagons under Railway's PFT policy.

EXIM & DOMESTIC BUSINESS

The unprecedented, still continuing recession in the world economy has impacted EXIM business of the country adversely, as reflected in the decline of EXIM container traffic handled in the Major Ports by 0.91% during 2012-13. This affected your company also which, however, still knocked a positive performance with a marginal growth of 0.75% in EXIM throughput, which reached 21,52,034 TEUs (in 2012-13) as compared to 21,36,000 TEUs handled during the previous financial year. In terms of tonnage, however, the increase was quite impressive, of the order of 10.56%, from 22.15 Million Tons of EXIM cargo carried in 2012-13 as against 24.49 Million Tons carted in 2011-12. This was better as compared to overall EXIM tonnage carried by all CTOs combined on IR which grew by 9.02% (from 29.17 Mn Tons in 2011-12 to 31.80 Mn Tons in 2012-13), signifying increase in the market share of your company to over 77% during the year 2012-13 as compared to 75.9% market share in the previous year. This increase in the EXIM share of CONCOR was despite gradual induction of rolling stock by other train operators who now hold as many as 135 rakes, as against 231 BLC/BLL rakes owned by your company. With continuance of the recessionary trend and stiff competition from other train operators, it will be a challenge to retain our share and growth. Your company is fully prepared to meet these challenges and attract more volumes, by way of meeting customers' expectations towards quality and cost effective services.

Domestic booking continued to be adversely affected following the ban on CONCOR terminals for handling railway wagons under the PFT policy, and introduction of commodity-specific rail haulage structure by Indian Railways during 2010-11 which prohibited mixing of cargoes in containers, hence driving away the major chunk of traffic being consolidated through Freight Forwarders. In addition, there were two rate hikes aggregating to maximum of 31% for 10 to 20 Ton weight category during the year which had to be passed on to the customers on account of very low margins. As a result, the total traffic handled in this segment during 2012-13 was only 4,33,652 TEUs, as against 4,68,311 TEUs handled in 2011-12 (5,43,746 TEUs handled during 2010-11), reflecting a decline of 7.4%. The decline was mainly due to drop in handling of notified commodities, mixed commodities and complete ban on loading of cement in containers for most of period during the year. With the relief provided by Indian Railways in some categories of rates during April 2013, and the reintroduction of "Hub & Spoke" policy, the trend in domestic traffic is likely to reverse in FY 2013-14.

Despite the circumstances mentioned above, on overall basis, your company was able to match the ambitious targets set in the Memorandum of Understanding (MoU) signed with the Government and is expected to be rated as "Outstanding".

INTERNAL CONTROL SYSTEMS

CONCOR has in place well defined roles, responsibilities and authorities for employees at various levels. This, coupled with robust internal MIS systems, ensures appropriate information flow to facilitate effective monitoring. Adherence to these processes is monitored through frequent internal audits. The company has an internal audit system that requires the internal audit firms to certify the appropriateness of internal controls in operation. The internal auditors are external

Increase in business volumes and successful induction and running of High Speed Wagons have been the main reasons for the company's growth.

EXPENSES

Terminal and other service expenses have increased by 10.11% over FY2011-12. The increase in direct expenses in the current year is due to rise in corresponding operating income and increase in rail freight expenses.

OTHER EXPENSES

The other expenses have increased by 20.54% over FY 2011-12.

MANAGEMENT DISCUSSION AND ANALYSIS

EMPLOYEE REMUNERATION

The employee cost has grown by 7.33% over FY 2011-12 which is on account of annual increments, promotion, increase in dearness allowance, provision for employee benefits, etc.

TAXATION

Current and deferred income tax provision for the year have been made in accordance with the provisions contained in Income Tax Act, 1961 and Accounting Standard 22, "Accounting for Taxes on Income" issued by the Institute of Chartered Accountants of India (ICAI). Accordingly, current and deferred income tax provisions have been worked out as ₹241.57 crores and ₹31.47 crores respectively.

As per 'Guidance Note on Accounting for credit available in respect of Minimum Alternate Tax under the Income Tax Act, 1961' issued by ICAI, income tax provision for current year has been worked out after availing MAT credit of ₹30.63 crores. Unabsorbed MAT credit of ₹35.21 crores has not been recognized as an asset, as there is no convincing evidence that the company will pay normal tax during the specified period.

RISK MANAGEMENT

The Company has constituted a Core Risk Management Committee (RMC) for managing the integrated risks of the Company. The committee had identified the possible risks and its mitigation plans. The main functions of RMC is to monitor various risks likely to arise and to examine Risk Management policies and practices adopted by the Company, and also to initiate action for mitigation of risks arising in operation and other key functional areas of the Company. All the terminal heads of the operating units are required to list out the effectiveness or non effectiveness of control / action plan formulated to mitigate the same. The same is reviewed by the RMC and put up for the approval and acceptance of Audit & Ethics Committee. The Company has implemented Phase-II & III of its ERM system incorporating identified risks and has also conducted a one-day training program to all the Regional Terminal Managers/In-charges. The ERM reports are also evaluated by the RMC in its quarterly review submitted to Audit & Ethics Committee.

OPPORTUNITIES & THREATS

Your company is an undisputed leader in the field of Multi-modal Transport in India with the largest available network of "state-of-the-art" intermodal terminals across the country providing an unparalleled reach and penetration, combined with a strong presence at almost all container handling ports. It has strong financials and highly committed team of experienced and skilled manpower with in-depth knowledge of multi modal logistics business. Availability of fairly large fleet of rolling stock (especially high-speed BLC/BLL wagons), specialized container handling equipment, customized owned/leased containers, and fully computerized commercial operations with internet based customer and customs interface provide it a strong competitive advantage in availing opportunities for further growth.

The overall prospects of growth of the business of your company are impacted by various factors, including the environment in which it operates. The overdependence on some specific rail corridors for Exim Business which are getting increasingly saturated is one such factor. Second is the influx of private CFSs/ICDs in port towns, especially developed by parties to curtail hinterland movement of boxes and imminent rail connectivity. Another major factor relates to the constraints being faced by the company in land acquisition for development of new terminals on reasonable terms and conditions including rates. There is also increasing competition from private players who have flexibility to resort to discriminatory/restrictive pricing and services which is against the ethics of your company. Last, but not the least important, is the fact that the improved road infrastructure in the country is facilitating direct road transfers with competitive transit times and costs, despite all environmental and energy advantages associated with rail transport.

Despite all these, your company is well poised to tap the new business opportunities arising from potential Growth in EXIM container volumes, and the likely increases in container traffic due to development of dedicated freight corridors being developed Accordingly, it has already taken lead in developing Logistics Parks along the upcoming Dedicated Freight Corridors.

The economic scenario in India is bound to undergo a major transformation once the disturbing external trends get reversed, as is being forecasted. The putting back of Indian Economy on high growth paths is bound to result in additional transport demands. This, coupled with the anticipated changes in profile of traded goods -from intermediate to finished goods, is bound to increase the opportunities for containerization in domestic market. Added to this, the development of DMIC/DFC, and the large number of Industrial Parks, SEZs etc by State Governments offers your company the excellent opportunity for adorning the role of Logistics Partner for the states/industrial estates through arrangements of mutual benefits. Already, a lot of ground has been covered by your company towards this which will pave the way for future creation of requisite capacities, hence becoming a magnate for development of industry in consonance with the infrastructure being developed by the company.

MANAGEMENT DISCUSSION AND ANALYSIS

The Growing market potential in air cargo has already attracted your company who has responded well by creating a separate fully owned subsidiary called "CONCOR Air" during last year. This company has taken over entire air cargo handling in Mumbai and will now be seeking to modernize the facilities and convert services into ultramodern so that air cargo gets a fillip. In food supply chain management, the Cold Chain initiative taken by the company is now matured. This business, being done by CONCOR both on its own and through its wholly owned subsidiary – M/s Fresh and Healthy Enterprises Limited (FHLE) is all set to get a big fillip with the recently permitted entry of FDI in the retail sector which will increase scope of sale of premium fruits through these retail chains in off-season.

The company is also eagerly awaiting the introduction of GST which will result in mushrooming of customer needs for total logistics solutions incorporating value added services of 3PL/4PL, inventory /warehouse management, contract logistics services and knowledge support services. Your company has already made arrangements to provide all such services and take lead in this area, as soon as the demand for these gets generated.

FUTURE OUTLOOK

For 2013-14, your company is determined to achieve higher growth rates both in EXIM as well as Domestic segments. For EXIM segment, the growth will primarily be generated through growth of exports which are likely to get a fillip after introduction of new policies and a likely improvement in external demand for Indian Exports. This should address imbalance issues, hence leading to increased hinterland penetrations. In addition, there are anticipated increases in throughputs in the existing ports, and likely volumes expected to arise in new emerging ports. A significant factor to hasten this would be the re-opening of "hub and spoke" policy of Indian Railways which will facilitate development of Rail Transshipment Hubs besides help clubbing of traffic from various origin points or moving to various destinations from one point. It is also proposed to generate higher incomes from value added activities such as specialized warehousing, packaging, invoicing etc.

For Domestic segment, your company hopes to gain back the growth momentum with increased availability of inventory and improved business potential on account of recently announced adjustments in some of the constraining policies. "Hub and Spoke" should help here also.

STRATEGY TO MEET THE CHALLENGES

Against the backdrop of the outlook presented above, your company has formulated a strategy for taking the growth further with higher profitability, despite the challenges of an increasingly competitive market. The strategy targets:

- Setting up of Multimodal Logistics Parks at wantage locations through strategic tie-ups with central agencies, state governments, road/rail operators etc.
- Providing efficient response and integrated multi modal services.
- Increase in revenue by diversification and product differentiation.
- Operating Air Cargo centres at Airports.
- Use of technology for minimizing transaction costs, by way of e-transactions.
- Strategic CSR – as a means of payback to the society while at the same time ensuring all inclusive growth of your company's internal and external stakeholders.

2.6 Principle-6: Responsibility towards environment

The technical department of CONCOR is monitoring the fuel consumption per completed move for RTG cranes provided at TKD, DDL and DER terminals. This parameter has been monitored for the last 3 years and has resulted in reduction of fuel per completed moves from 1.8 litres to 1.64 litres in 2012-13.

According to a McKinsey & Company Report on India's Logistics Infrastructure (July 2010), each tonne movement done by rail v/s road reduces carbon dioxide emissions by 36 gms per tonne- km. CONCOR transports around 30 mn tonnes over an average lead of 1,000 km using rail infrastructure for transportation of containers. This results in reduction of carbon dioxide emissions by nearly 1 mn tonnes by CONCOR in one year through the use of rail transport.

CONCOR is also monitoring fuel and lubricating oil consumption of machines owned by it. CONCOR also analyses the average cost of maintenance and the proportionate contribution of fuels, lubricating oil, and other spare parts to the overall cost. This monitoring enables CONCOR to identify in time when any increase in the consumption of fuel or lubricating oil takes place and enables prompt maintenance.

The procurement of equipment is done as per the latest specification incorporating the best practices available worldwide. As a result, while the actual fuel consumption per move of Linde machines, purchased in 2007, is around 1.2 litres per move, the fuel consumption in the machines procure from M/s Konecrane in 2010-11 is about 1.1 litres per move, i.e. a saving of 0.1 litres per move. Considering that these machines are making average 300 moves per day, this translates into a total saving of about 30 litres of fuel per machine per day.

At its terminal at TKD, the company has conducted study for reducing the level of noise and air pollution through an independent professional agency. The inputs from the study were implemented at the terminal as a result the level of noise and air pollution has also come down.

The company has adopted public procurement policy for goods produced and services rendered by Micro and Small Enterprises (MSEs) be procured by Central Ministries/ Department/ Public Sector (PSUs).

Since its inception CONCOR has always worked towards inclusive growth of the society by contributing through its efforts & available resources for sustainable development of all its stakeholders, including allied partners and logistics service providers. Like previous years, CONCOR allocated 0.50% of PAT of previous year towards CSR Budget for F.Y. 2012-13.

We understand that in the field of Logistics in India lot of work is yet to be done, including creating desired infrastructure. Realizing that in our country a large quantity of fruits, vegetables and cereals produced could not reach the consumers due to non-availability of infrastructure required to preserve their quality till their actual consumption. Due to the demographic structure of our country we need to enhance the productivity in the farm sector and reduce our dependence on import. In this direction, in one of our venture, we have pioneered in the business of setting up cold chain facilities by adoption of latest available technology. Under this business fresh fruits and vegetables are kept in controlled atmosphere which not only increases their shelf life but also provide better value to the farmers for their produce. The company has set up a state-of-the-art infrastructure for providing cold chain facilities in which fresh fruits and vegetables are kept after their procurement from the farmers. With this initiative not only the farmers are getting better value for their produce but the consumers also having good quality produce at the right price, thereby benefitting the entire value chain.

In addition, the company has made provision for movement of fruits and vegetables in the ventilated containers thereby increasing their shelf life and reducing wastage. Similarly transportation of products like fish, meat, etc. in the refrigerated containers has been facilitated by providing appropriate infrastructure. These kinds of products are exported to a large extent from the country thereby resulting in benefits to all the stakeholders.

Dear Share holder,

SUBJECT : ELECTRONIC CLEARING SERVICE (ECS) FOR DIVIDEND PAYMENT

We are pleased to advise that the Board of Directors have recommended final dividend @ 95% i.e. ₹ 9.50/- per share in addition to interim dividend @ 80%, already paid for the financial year 2012-13, subject to approval by the shareholder at the Annual General Meeting. The Register of Members will be closed during the period 3rd August, 2013 to 5th August, 2013 (both days inclusive).

Securities and Exchange Board of India (SEBI) vide its circular dated 15th October, 2001 had advised that "all companies should mandatorily use ECS facility for distributing dividends or other cash benefits to the investors wherever the ECS facility is available and in the absence of availability of ECS facility, the Companies may use warrants for distributing the dividends".

SEBI has also advised the Companies to mandatorily print the bank account details of the shareholders on the dividend warrants / payment instruments in the absence of ECS facility.

We are extending the facility to the shareholders of Electronic Clearing Services (ECS) provided by Reserve Bank of India for dividend payment. Needless to mention that dividend payment through ECS avoids the risks like postal delay, loss in transit, fraudulent encashment etc.

Under the ECS facility, your bank will credit the dividend amount in your bank account on due date and indicate the credit entry as "ECS" in your Pass Book / Bank Statement without issuing or handling paper instrument / warrant.

In case ECS mandate is not already registered or the same is to be changed, the shareholders are requested to fill and sign the enclosed ECS mandate form. The form thereafter be sent -

All information should be accurate and complete so that you get the credit of dividend in time. Kindly attach a photocopy of a cheque from your cheque book issued by your bank for verifying the accuracy of the MICR code no. indicated at the bottom of the cheque. Please note that these instructions will supersede all your previous bank mandates/details including those that may have been incorporated at the time of opening a beneficiary account with the Depository Participant.
